

## Type MHE-DC-T Cord Operated Drum Rotator

The type MHE-DC-T Cord Operated Drum Rotator is designed for fast and economical 205 litre drum emptying. A Chain Belly Strap with an eccentric lock holds the Drum firmly in position. To release the drum the Operator pulls the draw chord from the driver's seat. With the drum C of G forward of the pivot point, the drum tips forward 180°+ automatically.

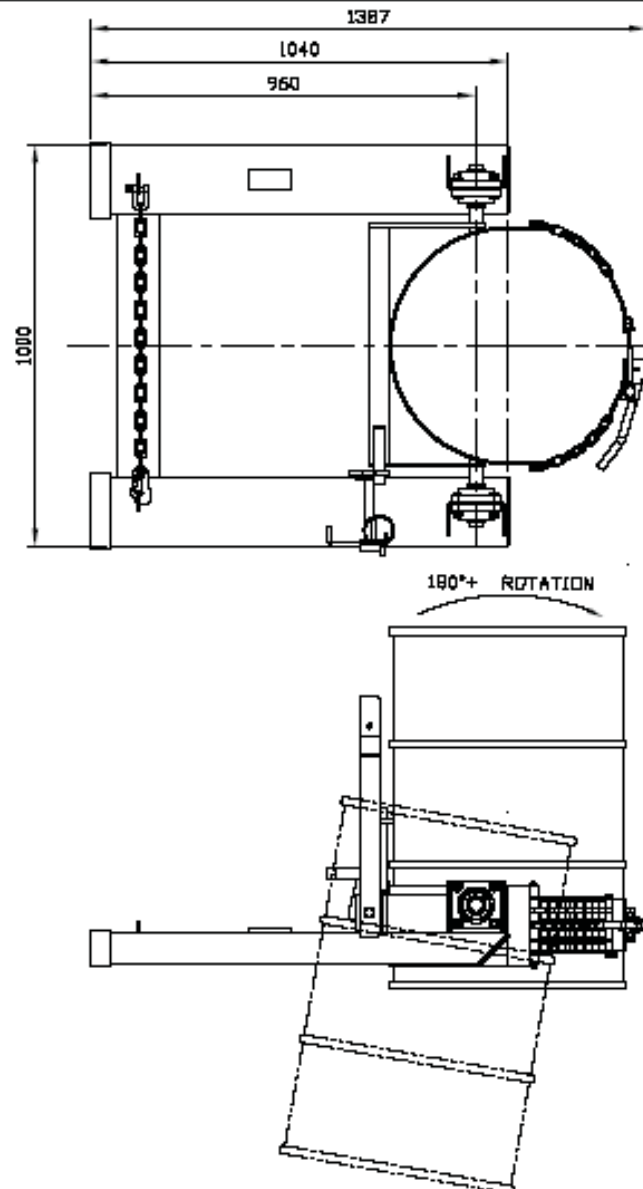

This unit is ideal for scrap and waste products. The standard finish is painted enamel.
