

Type MHE-FS3-LG Fork Spreader & Load Guard

The type MHE-FS3-LG Fork Spreader & Load Guard has been designed to safely lift extra wide or flexible loads without the risk of damage to products such as plasterboard, roof sheeting, timber or plastic tubing etc. The Fork Spreader evenly distributes the load over its full length and has the extra benefit of a load guard incorporated into its design. This slip-on attachment is easily fitted onto the Lift Truck fork tines and is secured by a safety chain.

Fork Spreaders may be designed and manufactured to suit your application on request.

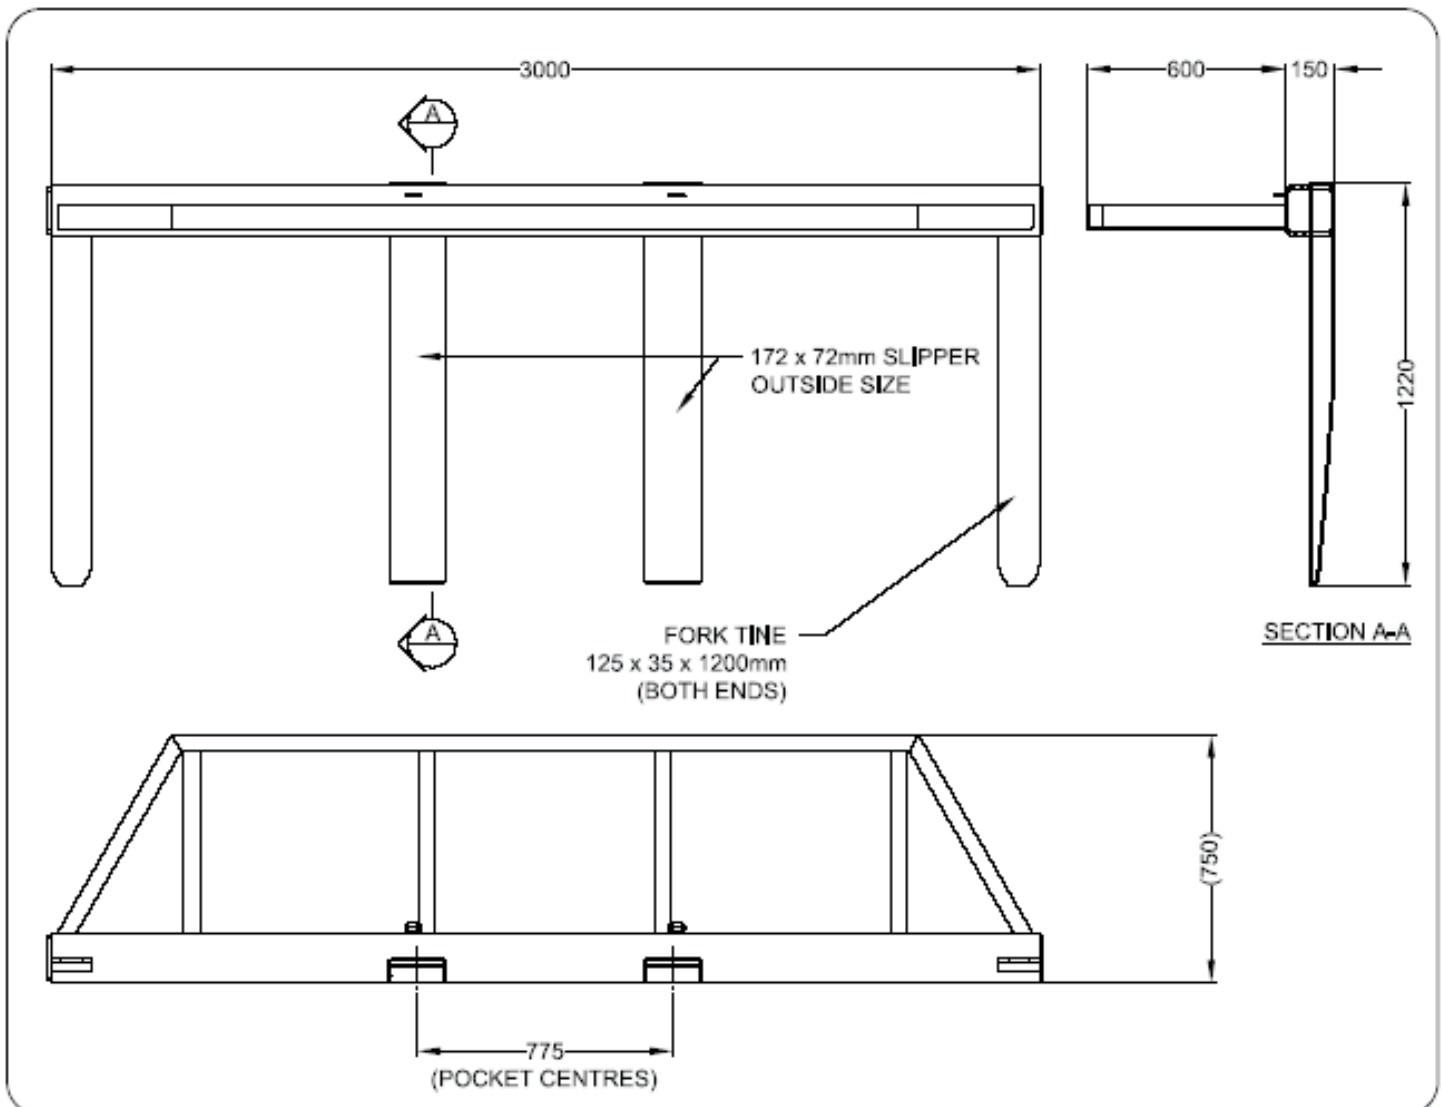

The standard finish on the type MHE-FS3-LG Fork Spreader & Load Guard is enamel painted over primed steel.
